

APICS Puget Sound and Puget Sound Chapter of Project Management Institute, are partnering to jointly tour the Factoria Solid Waste Transfer Station, as a follow up of the December presentation “Implementation of Capital Improvement Project, CIP” by Zahid Kahn, MSCE, PE, PMP.

This guided tour of the transfer station will review project considerations, including environmental protection and the infrastructure requirements for providing a multitude of services. Lessons learned from this complex, and politically high-profile project, will be discussed.

Join us for this tour on January 17. Do to space constraints, the tour will be limited to 25 people, however there will be two tours, one at 9am and a second at 11am. Plan to arrive 30 minutes early to take the shuttle.

1st Session:

9am Registration and Networking
9:15 Overview of the CIP
9:30 Plant Tour
10:30 Q&A, Lessons Learned
and light snack

2nd Session:

11am Registration and Networking
11:15 Overview of the CIP
11:30 Plant Tour
12:30 Q&A, Lessons Learned
and light snack

Due to parking restrictions, parking will take place at the far side of the property, and a van will shuttle to the tour site. Park at: 13620 SE Eastgate Way, Bellevue, WA *Please plan to arrive 30 minutes early to take the shuttle.*
